Editorial

Dear readers,

The editorial board of *Avian Ecology and Behaviour* regrets to inform that publication of this periodical is discontinued. Due to the insufficient number of high-quality submissions we are not able to continue publishing the journal.

The editorial board expresses its sincere gratitude to all authors and reviewers who supported the journal since 1998.

Annual ringing reports of the Biological Station Rybachy will be made available online with open access at the web site of the Biological Station.

Casimir V. Bolshakov
