

Again on *Euplectrus thanhi* Yefremova, 1994 (Hymenoptera: Eulophidae)

Z.A. Yefremova

Yefremova, Z.A. 2003. Again on *Euplectrus thanhi* Yefremova, 1994 (Hymenoptera: Eulophidae). *Zoosystematica Rossica*, **12**(1): 140.

Correct dates of publication are indicated for two papers, in which *Euplectrus thanhi* Yefremova, 1994 has been described as a new species. The publication in "Trudy Zool. Inst. Ross. Akad. Nauk" has priority.

Z.A. Yefremova, Department of Zoology, Ul'yanovsk State Pedagogical University, pl. 100-letiya Lenina 4, Ul'yanovsk 432700, Russia.

By a mistake, my paper describing the species *Euplectrus thanhi* was published twice. Both the publications appeared in 1994; both descriptions of the new species were based on the same holotype. The synonymy was established in a previous paper (Yefremova, 2003), but the dates of publication, owing to mistakes by me and by the editor of the issue, were indicated incorrectly.

The first description (Yefremova, 1994a) has been published in a volume which was received by the Zoological Institute, St.Petersburg, from the printery on 27 December 1994. This follows from the registration note by T.A. Asanovich, publishing manager of the Institute. This date should be accepted as the correct date of publication. The volume was signed to press on 14 September 1994, and this date (misprinted as 19 September) was erroneously indicated by me as the date of publication in the previous paper.

A second description (Yefremova, 1994b) appeared in an issue published on 30 December

1994 (see *Russ. entomol. J.*, **8**(4): 316, or the last pages in following numbers of the same journal). The date 19 September was erroneously indicated in the previous paper through a fault of the editor of the issue.
