

# Taxonomie und Chorologie der Gattung *Omaloplia* (Coleoptera: Scarabaeidae: Sericini)

**Authors:** Eckehard Rößner & Dirk Ahrens

**Editor:** Deutsches Entomologisches Institut (DEI), Leibniz-Zentrum für Agrarlandschafts- und Landnutzungsforschung (ZALF) e.V.

The book (in German language) represents a comprehensive taxonomic revision of the western Palearctic genus *Omaloplia*. The morphology and distribution of the species is studied, with emphasis on morphological variability. Variability of morphological and genitalic features are discussed and known geographical distribution of each species is mapped. A key to species is given and the nomenclature of *Omaloplia* is discussed by the hand of an bibliographical overview of its use in history.
