

NOTES ON SOME PREOCCUPIED NAMES IN ARTHROPODA

Christian F. Kammerer

Committee on Evolutionary Biology, The University of Chicago, Chicago, IL; E-mail: cfkammer@uchicago.edu

Abstract New replacement names for the preoccupied mite genera *Absentia* Huang, 2001 and *Venilia* Kuznetsov, 1979 are proposed (*Huangiella* nom. nov. and *Kuznetsovia* nom. nov., respectively.). Fourteen further new replacement names are proposed for additional preoccupied generic names in the Arthropoda. These names are: *Vailimia* nom. nov., *Millidgella* nom. nov., and *Nolavia* nom. nov. in Araneae, *Vadumasonium* nom. nov. in Hymenoptera, *Gridellia* nom. nov., *Vanstaronia* nom. nov. and *Veraniella* nom. nov. in Coleoptera, *Poletaevga* nom. nov. in Trilobita, *Vandelia* nom. nov. in Isopoda, *Gandoa* nom. nov. and *Vanuachela* nom. nov. in Decapoda, and *Crasquinia* nom. nov., *Oertlia* nom. nov., and *Soleaua* nom. nov. in Ostracoda. Additionally, one new annelid replacement name, *Omodeodrilus* nom. nov., is proposed.

Key words Preoccupied names, zoological nomenclature, Arthropoda, Acari.

Huang (2001) named a new eriophyid mite genus, *Absentia* (type and only species: *A. lanyuensis* Huang, 2001), on the basis of four individuals from the Taiwanese coastal island of Lanyu. However, Togashi (1990) had previously used the name *Absentia* for a tenthredinid hymenopteran, also from Taiwan. *Absentia* Togashi, 1990 is currently considered synonymous with *Tenthredo* Linnaeus, 1758 (Goulet, 1996). Nevertheless, the mite *Absentia* requires a new name, for which I propose *Huangiella* nom. nov. as a replacement. It is feminine in gender and honors Dr. Kun Wei Huang, the original descriptor of this mite and a major contributor to our understanding of Taiwan's acarifauna.

Kuznetsov (1979) erected the genus *Venilia* for *Paralorryia liberta* Livshitz, 1973 (Acari, Tydeidae). This genus is currently considered (Kazmierski, 1981) to have seven species: *V. caudata* Kuznetsov, 1979, *V. granulosus* (Canestrini, 1886), *V. liberta* (Livshitz, 1973), *V. longina* Kazmierski, 1981, *V. maga* (Kuznetsov, 1973), *V. ovata* Kuznetsov, 1979, and *V. zaheri* (Baker, 1968). Unfortunately, the name *Venilia* is preoccupied sixfold by *Venilia* Morton, 1833 (Bivalvia), *Venilia* Gay, 1837 (Onychophora), *Venilia* Alder and Hancock, 1844 (Gastropoda), *Venilia* Bonaparte, 1850 (Aves), *Venilia* Bate, 1856 (Crustacea), and *Venilia* Chambers, 1872 (Lepidoptera). I propose *Kuznetsovia* nom. nov. as a replacement name. It is feminine in gender and honors Dr. N. N. Kuznetsov, the original descriptor of this mite.

While researching the taxonomic history of

Venilia, I discovered several other arthropod genera that are currently preoccupied. These are renamed below.

Vadum Mason, 1985 (Hymenoptera, Braconidae, Heliconiae) *nec* *Vadum* Strusz, 1982 (Brachiopoda, Articulata, Reticulariidae) is renamed *Vadumasonium* nom. nov. (neut.)

Vailima Peckham and Peckham, 1907 (Araneae, Salticidae) *nec* *Vailima* Jordan & Seale, 1906 (Osteichthyes, Perciformes, Gobiidae). This spider genus is misspelled "Vailimia" in Prozynski's (2003) comprehensive catalogue of the Salticidae. It would be prudent to make this widely known misspelling into an official replacement name. Thus, I propose *Vailimia* nom. nov. (fem.) to accommodate "Vailima" *masinei* Peckham and Peckham, 1907.

Valdiviella Millidge, 1985 (Araneae, Linyphiidae, Erigoninae) *nec* *Valdiviella* Steuer, 1904 (Crustacea, Copepoda, Aetideidae) is renamed *Millidgella* nom. nov. (fem.)

Valentinia Crasquin-Soleau in Crasquin-Soleau and Orchard, 1994 (Crustacea, Ostracoda, Quasillitidae) *nec* *Valentinia* Walsingham, 1907 (Lepidoptera, Coleophoridae) *nec* *Valentinia* Coolidge, 1909 (Lepidoptera, Incurvariidae) is renamed *Crasquinia* nom. nov. (fem.)

Valonia Piza, 1939 (Araneae, Sparassidae) *nec* *Valonia* Walker, 1856 (Diptera, Platystomatidae) is renamed *Nolavia* nom. nov. (fem.)

Vansonia Schein, 1956 (Coleoptera, Scarabaeidae) *nec* *Vansonia* Roberts, 1946 (Mammalia, Chiroptera, Verspertilionidae) is

renamed *Vanstaronia* nom. nov. (fem.)

Vanua Rathbun, 1945 (Crustacea, Decapoda, Raninidae) nec *Vanua* Kirkaldy, 1906 (Hemiptera, Tropiduchidae) is renamed *Vanuachela* nom. nov. (fem.)

Vega Poletaeva, 1969 (Trilobita, Asaphiscidae) nec *Vega* Westerlund, 1887 (Mollusca, Gastropoda, Arionidae) is renamed *Poletaevaea* nom. nov. (fem.)

Verania Mulsant, 1850 (Coleoptera, Coccinellidae) nec *Verania* Krohn, 1847 (Mollusca, Cephalopoda, Octopoteuthidae) is renamed *Veraniella* nom. nov. (fem.)

Verhoeffiella Vandel, 1970 (Crustacea, Isopoda, Philosciidae) nec *Verhoeffiella* Absolon, 1900 (Collembola, Entomobryidae) nec *Verhoeffiella* Zacher, 1910 (Dermoptera, Pygidicranidae) is renamed *Vandelia* nom. nov. (fem.)

Vernoniella Oertli, 1957 (Crustacea, Ostracoda, Podocopida) nec *Vernoniella* Guimarães, 1942 (Phthiraptera, Philopteridae) is renamed *Oertlia* nom. nov. (fem.)

Victoria Crasquin-Soleau in Crasquin-Soleau and Orchard, 1994 (Crustacea, Ostracoda, Palaeocopida) nec *Victoria* Warren, 1897 (Lepidoptera, Geometridae) is renamed *Soleaua* nom. nov. (fem.)

Villiersia Gridelli, 1951 (Coleoptera, Tenebrionidae) nec *Villiersia* d'Orbigny, 1837 (Mollusca, Gastropoda, Onchidoridae) nec *Villiersia* Locard, 1886 (Mollusca, Gastropoda, Turridae) is renamed *Gridellia* nom. nov. (fem.) The name *Villiersia* was also used by Ormodeo, 1987, for a genus of annelids (Oligochaeta, Haplotaenidae), for which I propose *Ormodeodrilus* nom. nov. (masc.) as a replacement.

Voeltzkowia Lenz, 1905 (Crustacea, Decapoda, Pinnotheridae) nec *Voeltzkowia* Boettger, 1893 (Reptilia, Squamata, Scincidae) nec *Voeltzkowia* Saussure, 1899 (Orthoptera, Gryllidae) is renamed *Gandoa* nom. nov. (fem.) (from the Swahili *gando*, meaning crab's claw.)
